Hi All,

Due to a technical fault the Presidents Report is unavailable this month.

He does hope that you all had an enjoyable Easter and is looking forward to catching up with everyone at the May meeting and then at Dutchmans Stern.

Paul is O.S. for work, but guess where he would rather be ?

Editors Report

Hi Everyone,

The March Madness and Easter Crush is behind us and we can look forward to the Flinders Ranges and 4 days at Peake for fun in the sand or just chillin' around the campfire with or makin' friends.

Before those events we have to focus first on the April Meeting, as our intrepid Trip Co-ordinator has organised for Cameron Wearing Training Director for the Adelaide Hills 4WD Park to be the guest Speaker, who, amongst his achievements, has participated in two London to Sydney Car Rallies .

In May, Charlie has arranged for Chris Ellis ,Engineering Manager, for Monroe Tenneco , to be our Guest Speaker. He will be talking about vehicle suspensions.

Thanks to Charlie for arranging the Guest Speakers. It's not easy finding people willing to give up their Friday night to visit, and it can be harder finding someone to present an interesting subject, which appeals to the majority of Members.

The Visit from Sergeant Shoemaker and Yo-Yo last meeting met with wide praise

We have a great story in this edition from Pete D, outlining the excellent modifications he has made to his Forester.

If you wish to make modifications to your vehicle to enhance it's performance and exploring capabilities, talk to fellow Club members, as there are many ideas around and some may suit your situation and vehicle use.

Remember, that what ever you do, your vehicle must always be with in safety and the manufactures guidelines.

It is very easy to overload a vehicle with fuel, water camping gear and too many bodies on board. This includes anything that you are towing, too.

Happy Exploring

Thebarton Barracks, Gaol Road, Adelaide

Dear Tim and Yo Yo,

On behalf of the Members of the Subaru 4WD Club I would like to express our sincere gratitude for your commitment to training and the important work that you do in helping to keep our community safe.

Your visit to our Club drew the biggest crowd to a meeting that we have had for some time and we were not disappointed. It was great to learn about the training that goes into preparing the Dogs and Handlers for different tasks.

It is amazing how the dogs can be trained to identify different types of substances and how patient but alert the handlers have to be. Every one thoroughly enjoyed your presentation and fell in love with Yo-Yo.

Thank You,
Bruce Mitchell

Pete D's SJ Forester (2014)

Bought my SJ Forester back in March 2015, went up the Barossa after seeing the ad for the runout of last year's models. Liked what I saw and they told me they would bring it to my work to test drive the next day. Low and behold the next day the salesman turned up with an XV which I thought was strange. Yes he got it wrong, I wanted the Forester!

Well a lot has changed since I first got it.....

Modifications:

Full SLO lift kit 2" front 2.5" Rear allows for any sag when loading the Forester.

saves lives!

It is recommended that Club Members carry an up to date copy in their Vehicle Glove Boxes , Especially on Club Trips or Events. Club Officials would only access Personal Information in an Emergency.

Available from the Treasurer for \$2.00

The Emergency Medical Information Book - contains all of your information and medical records which is needed if or when an ambulance is called and you need to be transported to a hospital.

When paramedics are called, a typical scenario is that distraught family members may be unable to give correct details of the patient's condition, or the medication they may be on. The paramedics physically have to collect all the patients medication in the house, try and obtain a medical history and take it to the hospital with the patient.

This small book contains patient contacts, service or carer provider information, medications and any medical condition, so a paramedic is able to treat and ready a patient for transport to a hospital.
