4WD CLUB
OF SOUTH AUSTRALIA INC

G'day to you all out there in Subaru land,

July brings the cold weather and a close to the 2022-2023 Club year. I would like to thank this year's Committee for the marvellous job they have performed in administering the club over the past 12 months.

Also, I would like to thank those who sent in trophy nomination forms for those who deserve recognition in their efforts this year, good or bad. The nominations make the selection process much easier for the committee.

There have been a few Committee nominations received, we need more, these can be handed in on the day or given verbally at the AGM.

Speaking of the AGM the Club will be providing Pizza and Drinks (soft drink, mid strength beers, wine) after the AGM as a celebration of the year that was.

The Club is always after new committee members so please consider a role for yourself helping to administer the running of the club, put your hand up or ask someone to nominate you.

There is a good mix of trips further in the magazine, some day trips some weekenders, please get your name on a trip and support the efforts of those running the events.

Peake was a resounding success again with a strong turn out and plenty of fun had amongst the sand hills. The Subicana was run, and some excellent effort put in, and some very ordinary efforts put in also to in the driving challenges. Come to the July meeting and find out more about an excellent trip.

There will be a club raffle announced soon also for an excellent prize, please help to sell tickets to family, friends and workmates to raise some club funds.

Anyways, enough from me for now, See you along the track or even better at the July meeting,

Cheers Shinksy.

Editors Report

Hi Everyone,

The time has come , after 6 years, yes SIX years. I have decided to give the keyboard a rest and retire . I would like to thank the Club for giving me this opportunity to expand my knowledge and learn the foibles of Publisher. Cut, paste, paste and cut are just part of the job.

It was a steep learning curve and sometimes it's been a struggle getting content, and on time, but I managed to get 66 issues out, usually on time, and sometimes with the assistance of two emails.

Thanks to the critics, I welcomed your input, especially Peter Strazds !

In this issue is an article on Mt. Chambers Gorge. I remember it from the 1970's when access wasn't restricted. It really is worth time to take a visit.

Thanks mainly to Peter Strazds, in lieu of an article there is a wonderful gallery of photo's from the recent Peake weekend. There was a very good turn up and it is good to see all ages enjoying them selves.

Thanks to Paul Kinnear and his helpers for organising the activities.

The Gymkhana was a lot of fun , with many variations of how to complete the course in a Safe Controlled Environment on Private Property.

There were the quick ones, two wheel drive, first timers, one competed successfully in reverse, slow cautious attempts and we also had two young learners who did very well.

Partners can learn to drive a 4WD so they can share the driving and be prepared to drive in case of an emergency.

Our Sponsor, Eblen Subaru are having a Christmas in July Promotion, helping Backs Pack 4 SA Kids. Check page 32 for all the info.

The August Meeting will be held in Eblens Showroom at 7.00 PM Sharp

Thanks to the contributors in this edition and for the assistance over the past 6 years. Bruce Mitchell, Editor

The Next Committee **Meeting** will be held at in July 2023

Location & Date will be decided after the July AGM

Please arrive for a **7.30pm SHARP** , START.

BYO Supper to share

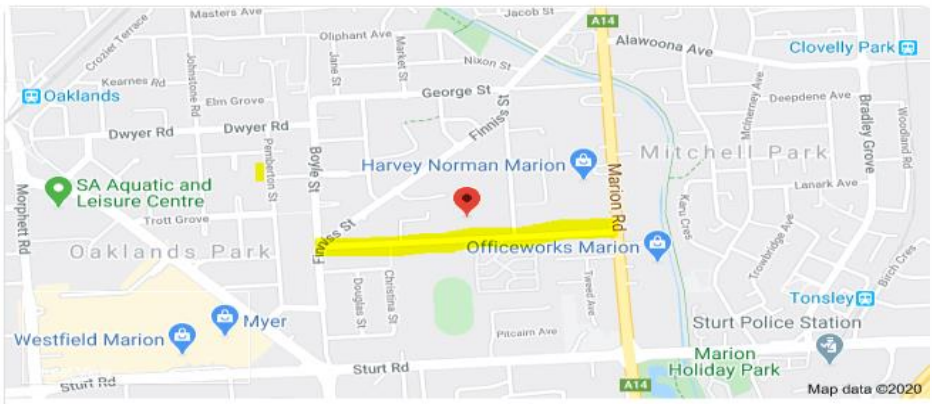

The next General Meeting of the Subaru 4WD Club Of SA INC

will be held on Friday July 7th, 2023 at 7.30pm ,
followed by the AGM

Pizza and Drinks (soft drink, mid strength beers & wine) will be served
after the AGM
as a celebration of the year that was.

Vietnam Veterans Federation Clubrooms,
The Yerbury Centre, Unit 1, 31/39 Norfolk Rd, Marion SA ,
at the REAR of the property on the ON THE RIGHT,
adjacent to the Marion RSL

Fielders Products Showroom is on the northern corner of Marion Rd. and Norfolk Rd.
Turn into Norfolk Rd & past Township Rd., on the Right ,is a park,

0427 237 455 and collect them at a Club Meeting.**

A Chain Reaction

Did you know that calf, knee and hip issues can be a sign that there are imbalances in the structures below? Sometimes we don't always associate problems from the knees up with a foot problem, but without a strong foundation, the body will compensate.

So if your feet aren't functioning well, your legs and associated muscles will have to work that bit harder to keep you balanced. This can lead to things like knee pain and tight calves.

What do you think happens then if your legs aren't balanced? Your hips and back will start to compensate further up the chain. This can lead to problems like sciatica, back and hip issues.

Thinking logically forward again, if your back and associated muscles are not in balance, you can have shoulder and neck issues and headaches.

This is why it's so important that your body has a strong and stable foundation, so all the structures that sit further up the chain can also remain balanced and functioning in harmony with each other.

Re-Printed from “Foot & Leg Centre” News Email

Just like a Club, we need a full Committee of dedicated people to share the load and make it easier for the other committee members to provide a great program for the Club Members.

Dreamtime Camping at Mount Chambers Gorge

We hope you enjoy this write-up by Ricko from Australia ReDiscovered. Ricko has a huge passion for the country, and stories of Australian history came to be, and hopes he inspires Aussies to go out on an adventure and rediscover some great Australian history – whatever form it comes in.

The indigenous spirit is alive and well in Northern Flinders Ranges

In my job, I am fortunate enough to camp in some pretty special places. But when I think of places steeped in Indigenous culture, the campgrounds at Mount Chambers Gorge in the northern Flinders region of South Australia are always near the top of my list.

The campgrounds alone are spectacle enough, particularly the drive in through the usually dry creek bed. However, once you make into the open gorge you are greeted with a rusty red rock backdrop, level ground and huge shady eucalypts that have no doubt seen countless corroborees, campfires and explorers over the centuries. It is truly breathtaking, especially around sunset.

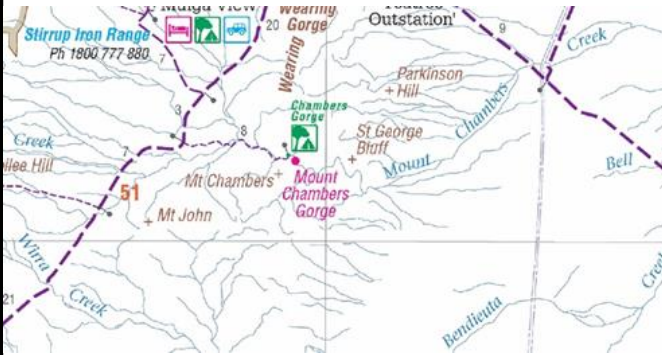

Mount Chambers Gorge is around 60km northeast of the town of Blinman and 80 km south of Arkaroola Village. The track in can be a bit rough at times, so you'll need a 4WD to safely access its unmatched beauty

If towing, a caravan or camper trailer designed for off-road use is necessary. Whatever vehicle you take, you'll want to make sure its insurance covers

you this far off the beaten track just in case something goes wrong in this very remote region of outback South Australia. Once there, you will find little in the way of facilities (and by little, we mean nothing), so you will need to be prepared to be entirely self-sufficient, and of course, leave nothing but footprints behind.

Mount Chambers Gorge cont

For those wishing to experience everything the gorge has to offer, you had better pack your walking boots!

A walk down the gorge will lead you to a smaller off-shoot to the west, where those with the patience to search will find a special

little valley that is loaded with incredible indigenous etchings that are said to date back over 40,000 years!

The simple shapes and lines in each etching depict things like traditional initiation ceremonies, animals and campsites, and were seen as a form of communication for the nomadic Adnyamathanha people who called the region home. If you're like me and appreciate the more recent history of the area, you'd be interested to learn that Captain Frome was the first European to see the area in 1843 (after whom Lake Frome is named). However, it was the intrepid Scotsman, John McDoull Stuart, who gave the place its name of Mount Chambers Gorge, naming it after his financial backers, the Chambers brothers. Stuart of course was the man who ventured from south to the north of the continent, and lived to tell the tale, unlike his contemporaries,

Mount Chambers Gorge cont

Burke and Wills, with whom he was racing to be the first to complete the journey. Burke and Wills may have beaten old Stuart, but Stuart lived to tell the tale.

Best of all however, is that the campsites at Chamber Gorge are free, for all to enjoy, and in fact it is one of just a handful of free campsites in the Flinders Ranges!

Useful Information For The Area:

- Great walking tracks and incredible indigenous history
- 4X4 access only
- No facilities – be prepared and fully self sufficient
- No phone service

No water available

Re Printed from *Australia ReDiscovered*

PEAKE 2023 PICTURE SHOW

PEAKE 2023 PICTURE SHOW

PEAKE 2023 PICTURE SHOW

Photos by P. Strazds & B. Mitchell

The Platypus Guardian

Peter Walsh, a Hobart resident, is turning a personal hardship into a heartfelt mission to protect the threatened platypus population of Hobart's waterways.

His story is the focus of the upcoming ABC documentary, 'The Platypus Guardian', premiering Tuesday, 13 June at 8.30pm on

ABC and iview.

Walsh's journey began with a life-altering brain injury diagnosis. In search of solace, he found himself drawn to the Hobart rivulet, where he formed an unexpected bond with a platypus he named Zoom. Harnessing cutting-edge camera technology, Walsh is determined to shed light on the secretive life of this female platypus and the challenges she confronts in her increasingly precarious habitat. The turning point came when Walsh discovered Zoom ensnared in plastic, highlighting the peril facing the platypus population. Enlisting the help of experts, Walsh embarked on a deep exploration of the rivulet's health and the platypus community that calls it home. His intimate observations provide a rare glimpse into the life of these unique creatures.

But when bulldozers and a flash flood jeopardise the rivulet, causing Zoom's sudden disappearance, Walsh feels compelled to act. He initiates a grassroots conservation effort, rallying the community to rescue his platypus friends from the brink of extinction.

'The Platypus Guardian', a WildBear Entertainment Production, features spectacular natural history footage, capturing never-before-seen moments of the platypus in its natural habitat. The documentary unveils the enchanting world that thrives in the shadows of the city, showcasing Walsh's race against time to safeguard it.

Screen Australia, in association with Screen Tasmania and with support from Content Mint, primarily fund the project. Chadden Hunter serves as the executive producer, with Nick Hayward and Fraser Johnston as the director/producer and producer respectively. Leo Faber is the ABC Executive Producer.

Available to watch on ABC i View

Re printed from <https://tvblackbox.com.au/page/2023/06/13/hobart-man-champions-endangered-species-in-riveting-abc-documentary-the-platypus-guardian/>

I was captivated by this program. It's as good as any detective story.

The River Torrens has just be declared as a Platypus Friendly Habitat for proposed re-introduction.

The only Platypus colonies in SA are on Kangaroo Is.

B. Mitchell , Editor

This has been around before but worth another run....

Be sure and cancel your credit cards before you die! This is so priceless and so easy to see happening - customer service, being what it is today!

A lady died this past January, and ANZ bank billed her for February and March for their annual service charges on her credit card, and then added late fees and interest on the monthly charge. The balance had been \$0.00, now is somewhere around \$60.00.

A family member placed a call to the ANZ Bank:

Family Member:

'I am calling to tell you that she died in January.'

ANZ:

'The account was never closed and the late fees and charges still apply.'

Family Member:

'Maybe, you should turn it over to collections.'

ANZ:

'Since it is two months past due, it already has been.'

Family Member:

So, what will they do when they find out she is dead?

ANZ:

'Either report her account to the frauds division or report her to the credit bureau, maybe both!'

Family Member:

'Do you think God will be mad at her?'

ANZ:

'Excuse me?'

Family Member:

'Did you just get what I was telling you . . . The part about her being dead?'

ANZ:

'Sir, you'll have to speak to my supervisor.'

Supervisor gets on the phone:

Family Member:

'I'm calling to tell you, she died in January.'

ANZ:

'The account was never closed and the late fees and charges still apply.'

Family Member:

'You mean you want to collect from her estate?'

ANZ: 'Our system just isn't set up for death. I don't know what more I can do to help.'

Family Member:

'Well, if you figure it out, great! If not, you could just keep billing her. I don't think she will care..'

ANZ:

'Well, the late fees and charges do still apply.'

Family Member:

'Would you like her new billing address?'

ANZ:

'That might help.'

Family Member:

'Rookwood Memorial Cemetery , 1249 Centenary Rd, Sydney, Plot Number 1049.'

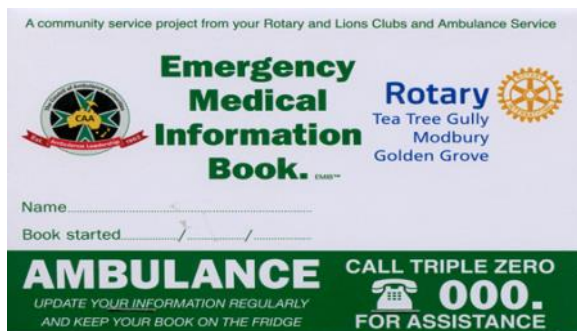

ANZ:

'Sir, that's a cemetery!'

Family Member:

'Well, what the #*+##* do you do with dead people on your planet?'

Submitted by Karl Teigesser

saves lives!

It is recommended that Club Members carry an up to date copy in their Vehicle Glove Boxes , Especially on Club Trips or Events. Club Officials would only access Personal Information in an Emergency.

Available from the Treasurer for \$2.00

The **Emergency Medical Information Book** - contains all of your information and medical records which is needed if or when an ambulance is called and you need to be transported to a hospital.

When paramedics are called, a typical scenario is that distraught family members may be unable to give correct details of the patient's condition, or the medication they may be on. The paramedics physically have to collect all the patients medication in the house, try and obtain a medical history and take it to the hospital with the patient.

This small book contains patient contacts, service or carer provider information, medications and any medical condition, so a paramedic is able to treat and ready a patient for transport to a hospital.

HAVE ONE ON THE FRIDGE Has a Magnetic plastic sleeve

THIS IS FOR YOUR OWN PROTECTION AND OURS!

Did you know that it is in the Club Constitution that your car must be maintained in good roadworthy condition with a minimum of 3rd party property insurance?

Do you have a fire extinguisher & RECOVERY KIT with you on club trips?

It's a club rule that you carry one of each.

Sales - Supply - Install - Service - Repairs - Hire

win this Christmas in July

**Donate to help kids in need and
WIN a free service!***

Help us help
kids in need.

We're currently
collecting donations of
non-perishable items
including toiletries,
nappies, stationery as
well as children's clothes
and shoes.

Your generosity will
make a big difference.
All people who donate
to go once again in the
draw for a free next
scheduled service.*

**Backpacks
